

**AGENDA**  
**Solid State RF Energy Section Day**  
**TurboChef Headquarter**  
**November 5, 2019**  
**1pm-5pm**

1. Briefly repeat section background to new members / interested folks (see also [www.rfenergy.org](http://www.rfenergy.org) for legacy information)
2. Tagging Initiative  
Improve food cooking and reheating by developing an open tagging language describing “what goes into the oven” to leverage the control and reproducibility that the solid state RF technology offers.
3. IPR policy of the section: how to deal with IP and innovation within working groups of the Section
4. Workgroup policy: how to behave in a working group
5. Annual operating plan: what do we want to do and attend
6. New technologies: update by member companies about their shareable latest and greatest
7. 4GCMEA contribution: discuss possible contributions to the 4GCMEA conference in Chengdu/China 2020
8. Other Business

*There is no charge to attend the Section Day Meeting. All IMPI Members, and potential IMPI Members, are invited to attend.*

*There will be an informal dinner following the Section Day. Each guest will pay their own bill.*

RSVP to [molly.poisant@impi.org](mailto:molly.poisant@impi.org) by November 1, 2019.
